you're the first!

Are you in NC now? Enjoy your family.

Marty,

I'd be excited to help out with this event, if you still have slots available.

Hope you're having a fantastic thanksgiving day!

Each year the City of Bloomington runs a web design competition for elementary and high school students, celebrating the life of Martin Luther King, Jr. Along with Diane Jung from the IU President's Office, Craig Brenner from the City of Bloomington, and me, we co-host this competition each year. What we need are Informatics judges to help evaluate the web site submissions and to choose winners. It's not a major commitment, it's a lot of fun, and it's an example of community service that looks good on a resume! IDP and HCI/d students welcomed.

I'd like to get about 10 judges to help. Send me an email if you'd like to volunteer your time. The judging will take place on Wednesday, December 8th, from 4 to 7 PM. There's no other time commitment involved (and we will likely finish a little early). Pizza and drinks will be served.

Let me know if you're interested in doing this. Here's the link to the contest: http://bloomington.in.gov/documents/viewDocument.php?document_id=5307
